

Research Seminar

DATE: 02nd August, 2018

TIME:2:00-4:00 PM

VENUE: KIST 2 Building, Conference room

The African Center of Excellence of Internet of Things, under University of Rwanda is organizing a Research Seminar which will be delivered by Mrs Chantal Mutimukwe and Mr Pierre Bakunzibake, two staff of University of Rwanda who are currently pursuing PhD studies on eGovernment under Örebro University, Sweden. The talks will concern their research field; e-Government and cover two major important themes:

- 1) Information protection in e-Government context in Rwanda
- 2) A model for process improvement in the implementation of e-Government services.

Their talks will aim not just at the e-Government researchers' community but also to e-Government decisions and policy makers as they would gain insights to viable e-government implementation and usability. On the other hand, the e-Government decision and policy makers would share their experiences and provide inputs to help the PhD students to produce beneficial and significant research results.

Mrs Chantal Mutimukwe

Theme: Information privacy protection in e-Government perspective in Rwanda

Mr. Pierre Bakunzibake

Theme: A model for process improvement in the implementation of e-Government services
